

A Black And White Issue

Via [Solomon](#):

Why would a **movement for black racial purity**, in France, which seeks to unite all people with 'pure' black skin and resents lighter-hued people, nevertheless have a soft spot for Islamists (most of whom do not have black skin and some of whom are currently **committing genocide** against people who do), but pathologically hate Jews, some of whom **do** have 'pure' black skin?

What doesn't seem logical on the surface, makes perfect sense when examined a little deeper. I think the skin color issue is far from their bottom line, which is a paranoid, conspiracy based world view which tends to find more in common with radical Islam than with similarly hued people that have a very different mindset.
